**JOINT GROUP ON DEPOT MAINTENANCE**

**CHARTER**

**FOR**

**JOINT DEPOT MAINTENANCE ACTIVITIES GROUP (JDMAG)**

**I. PURPOSE.**

The Joint Group on Depot Maintenance (JG-DM) hereby charters the Joint Depot Maintenance Activities Group (JDMAG), previously known as the Joint Depot Maintenance Analysis Group. The purpose of JDMAG is to support the Joint Depot Maintenance (JDM) Program.

**II. MISSION.**

A. The JDMAG provides staff support for the execution of the JG-DM Strategic Plan and the JDM Program. Significant mission areas include:

- JG-DM Strategic Plan
- Depot maintenance interservice (DMI) studies and analyses
- Depot maintenance business planning and evaluation
- Depot maintenance technology information evaluation and exchange
- Depot maintenance Military Construction (MILCON) proposal review
- Depot maintenance performance metrics development and tracking

B. In carrying out its mission, the JDMAG shall perform the following functions in coordination with the Services.

- Maintain the repository for depot source of repair (DSOR) decisions, capabilities data and JG-DM decisions.
- Coordinate execution of the Plan of Action and Milestones to support the JG-DM Strategic Plan.

- Conduct studies of new and existing systems and equipment; recommend assignment or reassignment of the DSOR. Review and track the implementation status of interservice source of repair decisions.
- Coordinate joint business planning activities, to include development of the Defense Depot Maintenance Council Business Plan.
- Maintain the Cost Comparability Handbook.
- Conduct joint reviews of all proposed depot maintenance Military Construction projects.
- Identify, assemble and publish information on depot maintenance performance metrics needed to support the JG-DM Strategic Plan.
- Conduct a depot maintenance technology information evaluation and exchange program focused on maximizing interservice application potential.
- Develop and recommend joint policy and procedural information on all functions conducted under the JG-DM.
- Maintain and administer the Depot Maintenance Interservice Support Agreement and Cost Comparability Handbook training courses.
- Provide monthly JDM Program activity reports to the JG-DM and prepare triennial Joint Logistics Commanders progress reports.
- Schedule and coordinate JG-DM meetings and develop agenda topics in coordination with their interservice representatives.
- Maintain liaison between JDMAG and the Services via the Maintenance Interservice Support Management Office.
- Perform studies, analyses and tasks assigned by the JG-DM.

### III. GUIDANCE:

OPNAVINST 4790.14, AMC-R 750-10, AFMCR 800-30, MCO P 4790.10A, Logistics Depot Maintenance Interservice, 1 Jun 1988.

### IV. ADMINISTRATION:

- A. The JDMAG Director position shall be staffed by the Navy and Air Force, alternating every two years, with an O-6 grade military officer.
- B. The JDMAG Deputy Director position shall be staffed by the Army, as a non-rotating position, with a GS-15 grade civilian.

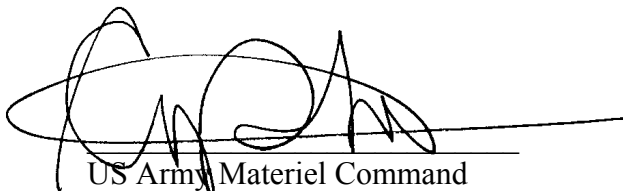

C. Each Service will identify and provide full-time personnel resources. Service planned or proposed changes in personnel position quantities should be discussed with the JG-DM prior to implementation.

D. JDMAG budgets will be reviewed and approved by the Services prior to submission to the JG-DM.

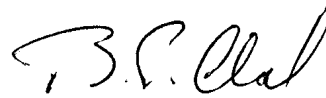

E. Each Service will identify and provide funding resources in accordance with the JDMAG budget and spending plans approved annually by the JG-DM.

F. The JDMAG Director has authority to realign personnel internally to meet mission contingencies. Permanent realignments will be coordinated with the Services as necessary to effect administrative/personnel decisions.

G. This charter supersedes the JDMAG Missions and Functions document dated 2 Sep 1987.
